

THE HIGH FUNCTIONALITY OF TOTAL CHANNEL SPANS FROM:

- Point to point video over IP transmission system
- Private Client TV Channel over IP system
- Media file management over IP

Total Channel is a sophisticated, enterprise level digital signage system.

Total Channel operates digital signage, Live TV, HD (or UltraHD), Interactive touch, video walls, auditing, reporting, ad tracking, and content creation.

Operating all within a single web controlled environment, Total Channel communicates your content between a central server and thousands of screens anywhere in the world.
